

# EIGHT IS ENOUGH TEAM GAME

## COMPLIMENTARY LESSON ON TEAM GAMES

Tuesdays @ 11:30am

### 8 is Enough Team Game

#### Complimentary Lesson on Team Games at 11:30 a.m.

The rules of the '8 is enough' Team game even out the experience factor among teams and creates a more competitive event. Every 4-person team has players whose combined rating totals to no more than 8.

#### Rating

3 for players with 500 or more Masterpoints

2 for players with 100-499 Masterpoints

1 for players with less than 100 Masterpoints

So, your team can have two players with a '3' rating and two players with a '1' rating or 4 players with a '2' rating or 1 player with a '3' rating and 1 player with a '1' rating and 2 players with a '2' rating. Or any other combination so the combined rating is less than or equal to 8.

I ask that you pre-register if you can create your own team. You can pre-register at this [link](#).

If you are unable to put together a team, go to this [link](#) to let me know and I will find you another pair to create a team or pair up individuals to create a team for you.

We will likely play 3 rounds of 7 boards/round and finish at ~ 3:45 p.m.

The complimentary lesson will cover:

1. How a team game works

2. How a team game is scored
3. How is the strategy different from a pairs game

Any questions, let me know by return email or fone = 704.996.1107
